Job Title: Software Development Engineer (Fresher)

Location: Bangalore / Hyderabad / Remote (India)

Company Overview:

Join our dynamic and innovative tech team that thrives on building scalable, high-performance systems. We are a product-first company with a mission to transform industries with technology. We value creativity, collaboration, and continuous learning.

Job Description:

We are looking for passionate Software Development Engineers (SDE) who are fresh graduates with a strong foundation in computer science. As an SDE, you will work closely with senior engineers and product teams to design, develop, test, and deploy scalable software solutions.

Responsibilities:

- Collaborate with cross-functional teams to understand requirements and design software solutions.

- Write clean, efficient, and maintainable code in languages such as Java, Python, C++, or JavaScript.

- Participate in code reviews and maintain code quality.

- Develop and execute unit and integration tests.

- Troubleshoot, debug and upgrade existing software.

Requirements:

- Bachelors degree in Computer Science, Engineering, or a related field.

- Solid understanding of data structures, algorithms, and object-oriented programming.

- Familiarity with version control systems like Git.

- Knowledge of web technologies or frameworks is a plus (e.g., React, Node.js, Django).

- Good problem-solving and communication skills.

- Eagerness to learn and adapt to new technologies.

Perks & Benefits:

- Competitive salary and performance bonuses.

- Mentorship and career development support.

- Flexible work environment.

- Health insurance and wellness benefits.

How to Apply:

Submit your resume and a short cover letter explaining why youre excited to join our team.
